

# How to play Bean Bag Toss

## Setup:

Place both boards side by side a few feet apart. Decide how far the bean bag boards should be placed from the tossing line. (For older Children, place the boards farther apart for more of a challenge.) Use a rope (or another object) to mark the tossing line. Each player takes 3 bags of the same color.

## Game Play:

The game is played in two full rounds and both players will have a chance to go first. For two players, each player chooses one of the boards. Each player tosses their bean bags at their board.

### Round 1

One player tosses all three of their bean bags towards their bean bag board. Add up the score and mark it down.

The next player now takes their turn and marks down their score.

### Round 2

The second player starts the round by tossing their bean bags and adding the new score to their previous score.

The other player now takes their turn and does the same.

## End of the Game:

The player (or team) with the highest score wins. In case of a tie, play one more round.

## Team Play:

Divide into teams of equal numbers of players. Each team is assigned a board to throw toward. Play as many rounds as there are players with teams alternating play and letting each player have a turn at being the first to toss.
